

LOKESH SAINI

Computer Science Undergraduate | NIT Jaipur
+91 9982114445 | lksaini2804@gmail.com | Github | LinkedIn

EDUCATION

Malaviya National Institute of Technology

Bachelor of Technology in Computer Science and Engineering; CGPA: **9.54**

Relevant Coursework: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Database Management System (DBMS), Computer Networks (CN)

Jaipur, Rajasthan

Expected Jun 2028

Saraswati Senior Secondary School

RBSE, Senior Secondary (XII); PCM: **96%**

Alwar, Rajasthan

Mar 2024

SKILLS

Programming Languages: C, C++, JavaScript (ES6+), HTML5, CSS3

Frameworks and Libraries: React.js, Express.js, Node.js, Tailwind CSS, Bootstrap

DB/Tools: MongoDB, MySQL, Git, Github, Canva, Linux, REST API, Postman, JWT

Cloud: Render, Vercel, Netlify, Railway, Cloudinary

PROJECTS

QR-Based Secure Attendance System - Github | React, Node, Express, Google Sheets API, JWT

Dec 2025

- Architected a **full-stack attendance system** with a **3-layer anti-proxy protocol** (**5-minute OTPs**, **device fingerprinting**, and **GPS geofencing**), that removed false presence markers.
- Engineered a scalable storage layer over Google Sheets API; added an in-memory batch queue to handle **120+ concurrent** scans while respecting **60 req/min limits**.
- Implemented **spatial verification** via the **Haversine formula**, utilizing a **bounding-box pre-check** to optimize overhead and enforcing a **50-meter radius** with **6-decimal coordinate precision**.
- Deployed the architecture across **Vercel and Render**, validating **5+ REST API endpoints** and **concurrency edge cases** via comprehensive **Postman test suites**.

FinTrack - Personal Finance Tracker - Github | React, Express, MySQL, Tailwind CSS, Google Gemini Jun 2026

- Spearheaded a **3-step Text-to-SQL pipeline** with **Gemini 2.5 Flash**, turning natural language queries into on-demand financial reports.
- Built a **5-layer security system** with SELECT-only checks, regex blocklisting, and user-scope validation, eliminating SQL injection risks.
- Designed a **3NF relational database** with **5 tables**, added ACID-compliant transactions and compound indexes to ensure data integrity.
- Integrated a secure **RESTful API** and **mobile-responsive frontend** utilizing Express.js, React 19, and Tailwind CSS v4, managing stateless JWT authentication and deploying the full-stack architecture across Vercel and Railway.

ACHIEVEMENTS

- **Selected for Amazon MLSS 2026:** Made it in top 2.2% among 134K applicants nationwide.
- Solved **500+ DSA and competitive programming problems**, Max Contest Rating 1713 - (Top 12.75%) LeetCode
- **JEE Mains 2024** | Secured 99.52 percentile (AIR 7814) nationally (Top 0.5% among 1.2M+ candidates)

ACTIVITIES

HackJKLU 5.0 -Github

Mar 2026

- Implemented a **real-time ISL gesture classifier** by applying a research-paper LSTM + MediaPipe Holistic architecture to a **custom-collected dataset**.
- Engineered the **end-to-end ML pipeline** — data collection HUD, augmentation (noise/jitter/mirroring), leak-free test splits, and live webcam inference — enabling real-time recognition of **11 ISL gestures**.

Gemini Enterprise Agent Ready -Google Skills

Jun 2026

- Completed Google's GEAR program covering AI agent architecture, ADK, Vertex AI deployment, MCP, A2A Protocol, and multi-agent orchestration.

Mentor (C2C Club) Malaviya National Institute of Technology, Jaipur

Mar 2026 - Present

- Mentored juniors in DSA and Full-stack development; organized weekly coding contests.
